

Call for Trainers: ISOOKO-CPD in Digital Archiving and Peacebuilding Programme: Re-Advertised

Programme Background:

A team of researchers from the college of Computing and Information Sciences (CoCIS) Makerere University are implementing an EU-ISOOKO project that is aimed at developing an open-source, participatory software platform that supports peace education and reconciliation in post-conflict societies by providing a digital 'safe space' in which communities can participate in distributed, information-driven processes of reflection and informed, constructive dialogue. As the ISOOKO Makerere team, one of the tasks in achieving this objective is to develop and carry out training programmes. The researchers conducted a Training Needs Assessment (TNA) within the East African region (Kenya, Rwanda and Uganda) in order to identify the training needs in regards to ISOOKO project objectives through which the following training needs were identified: Processing and preserving artefacts, Digital Archiving and Curation, Digital content management, Collection development of artefacts, conflict and peace development initiatives, Conflict resolution and management, Disaster preparedness and control, Reconciliation and negotiation skills, Video Editing, Communication skills, Digital Security, Museum management and Digital Photography. A modularized CPD with four modules was proposed; designed to impart knowledge and skills in peace building and digital archiving. The key objectives of the CPD are to:

1. Provide training on foundations, tutorials and hands-on practical sessions on peace building and digital archiving;
2. Enable tutors to apply peace building and digital archiving contexts so that learners acquire in-depth knowledge and apply it to complex, real-world problems;
3. Enable participants acquire a more proactive approach to project implementation as a result of the training

We are therefore seeking to temporarily recruit qualified personnel to train on a pilot 4-week CPD programme in Digital Archiving and Peacebuilding. This CPD has four modules - Digital Archiving and Photography, Digital Security, Museum and Peace Education and Conflict Management and Peacebuilding

Applications are open from **Monday 25th January 2021** to **Sunday 7th February 2021**. The Programme will commence on the **20th February 2021** and end on **14th March 2021**. Successful Applicants will be notified by **14th February 2021**.
